Use of these products may contribute to the achievement of GREENSTAR™ credit points.

The Container Connection supplies a range of planters, litterbins and furniture made from virgin polyethylene that are UV stabilized and will not rust, dent, chip or fracture. Products are fully recyclable at end of life and are suitable for interior and exterior commercial applications.

Planters, Furniture and Litter Management products are:

- Australian manufactured
- Sustainable and innovative Australian designs
- Rotationally moulded, an efficient low energy process
- A recyclable product
- Made from a polymer called polyethylene
- All release agents used in the moulds are water based
- Free of VOCs' (Volatile Organic Compounds) meaning it does not release gas or vapour ie: have a smell or fumes like new carpets, fresh paint etc.
- UV stabilized
- Can be manufactured in 100% Recycled Polyethylene (Black colour only)
- Will not leak, crack, break or chip
- Available in designer colours
- Products are regularly reviewed for continuous improvement
- Most planters have sub-irrigation capacity
- CottaPot™ and Littersmart, an Australian product for over 20 years

The Container Connection is a 100% Australian owned company
